- 2) Limits of Liability. Unless previously agreed in writing and supported by freight value declaration submitted by the Shipper, the Carrier's liability shall be limited as specified in Carrier's Tariffs, which are available upon request, but in no event shall Carrier's liability exceed the lesser of: (1) the Shipper's invoice value of the goods. (2) \$20.00 per pound of the weight of any new goods lost or damaged or (3) a maximum of \$200,000 per trailer or container. In no event shall carrier's liability exceed the goods' invoice value plus transportation paid. Household goods, used goods, and Package Express will have a maximum liability of \$0.10 per pound up to a maximum of \$5,000.00 per shipment.
- 3) Liability Exceptions. Carrier will not be liable for any delay, loss or damage to a shipment caused by an act of God; act of the public enemy; act or omission of the shipper, of public authority, of another party; or the inherent vice or nature of the goods. In no instance shall Carrier be liable for any indirect, consequential, loss of profit, special, exemplary or punitive damages. Carrier will not be liable for shipments which require special temperature handling or weather protection unless such information is conveyed in writing on Carrier's Bill of Lading. Every party, whether principal or agent, who ships explosives or hazardous goods, without previous full written disclosure to carrier of their nature, shall be liable for, defend and indemnify the carrier against all loss or damage caused by such goods. Such goods may be warehoused at owner's risk and expense and destroyed without reimbursement for their value. All shipments delivered to Carrier for further shipment are subject to the lesser of another carrier's or CARLILE limitation of liability, whichever is less. Unless agreed in writing prior to shipment, Carrier is not bound to transport shipment by a particular schedule, but is responsible to transport with reasonable dispatch. In no case will the carrier be liable for a claim amount which exceeds the replacement value of the goods. Different liability limits are available if a shipment has a declared value or in exchange for higher freight rates. See 49 USC Sec. 14706 (c) (1) (A and B).
- 4) Time Limits for Claims. Claims should be filed promptly once loss or damage is discovered. Time limit for filing on interstate shipments is nine (9) months from date of delivery and in the case of non-delivery nine (9) months following the date the shipment would have delivered. Time limit for filing on intrastate shipments is two (2) months and in the case of non-delivery two (2) months following the date the shipment would have delivered. Claims for concealed damages shall be filed within 15 days of receipt. Failure to timely file claims shall forever bar recovery of the claim. Lawsuits for loss, damage, injury or delay shall be instituted against any carrier no later than two years and one day from delivery or the day when written notice is given by the carrier to the claimant that the carrier has disallowed any part of the claim or from delivery, whichever is later. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, no Carrier shall be liable, and such claims will not be paid.
- 5) Declared Value. Declared value shipments must be arranged in advance and have the value declared on the front of the Bill of Lading. Declared Value shipments will have increased rates of \$1.00 per \$100.00 dollars of declared value from first dollar. Values over \$200,000.00, per shipment of new goods require pre approval, in writing, by an authorized representative. In no case will the declared value exceed the replacement value of the goods.

- 6) Prohibited or restricted items. Include the following property and will not be accepted for shipment: Currency, Jewelry, Museum Exhibits or Antiques, Artwork, Postage Stamps, or other articles of extraordinary value or inherently fragile items. In the event these articles are inadvertently accepted, our limit of liability will be \$0.10 per pound per lost or damaged shipment to a limit of \$1000.00. No carrier hereunder will carry or be liable for any documents, coin, money, or for any articles of extraordinary value not specifically rated unless a special agreement to do so and a stipulated value of the articles are endorsed on this Bill of Lading.
- 7) Undeliverable or refused shipments. (a) If the consignee refuses the shipment tendered for delivery by carrier or if carrier is unable to deliver the shipment, or if the cargo is not picked up within 15 days, the carrier's liability shall then become that of a warehouseman. Carrier shall promptly attempt to provide notice, by telephonic or electronic communication; if so indicated, to the shipper or the Party, if any, designated to receive notice on this Bill of Lading. Storage charges, based on carrier's tariff, shall start no sooner than the next business day following the attempted notification. Storage may be, at the carrier's option, in any location that provides reasonable protection against loss or damage. The carrier may place the shipment in public storage at the owner's expense and without liability to the carrier. (b) If the carrier does not receive disposition instructions within 48 hours of the time of carrier's attempted first notification, carrier will attempt to issue a second and final confirmed notification. Such notice shall advise that if carrier does not receive disposition instructions within 10 days of that notification, carrier may offer the shipment for sale at a public auction. The amount of sale will be applied to the carrier's invoice for transportation, storage and other lawful charges. The owner will be responsible for the balance of charges not covered by the sale of the goods. If there is a balance remaining after all charges and expenses are paid, such balance will be paid to the owner of the property sold hereunder, upon claim and proof of ownership.
- 8) Insurance. Any Carrier or party liable for loss of or damage to any of said property shall have the full benefit of any insurance that may have been effected, upon or on account of said property, so far as this shall not void the policies or contracts of insurance, PROVIDED, that the carrier receiving the benefit of such insurance will reimburse the claimant for the premium paid on the insurance policy or contract.
- 9) Water Carriage. If all or any part of said property is carried by water over any part of said route, such water carriage shall be performed subject to the terms and provisions and limitations of liability specified by the "Carriage of Goods By Sea Act" and any other pertinent laws applicable to water carriers.
- 10) Payment. The shipper, consignor, and consignee shall be liable for freight and other lawful charges, except that collect shipments may move without recourse to the consignor when the consignor so stipulates by signature endorsement in the space provided on the face of this Bill of Lading. Nevertheless, consignor and consignee shall remain liable for transportation charges where there has been an erroneous determination of the assessed freight charges based on incomplete or incorrect information provided or for additional charges as specified by 49 U.S.C. Sec. 13706. Nothing shall limit the Carrier's right to require prepayment at the time of shipment or prior to delivery. If the description of articles or other information on this Bill of Lading is found to be incorrect or incomplete, the freight charges must be paid based on the articles actually shipped. Claims made against Carrier (whether filed or unfiled) may not be offset by shipper, consignee or payor against freight charges otherwise owed to Carrier.

All shipments tendered must meet the requirements contained therein.

Carlile reserves the right to refuse to load any cargo which in Carlile's bona fide estimation may present risk of damage or injury to the vessel and appurtenances thereto, equipment, other cargo, ship's crew, or the employees of Carlile, its contractors, or the public.

B. SHIPMENTS OF RADIOACTIVE MATERIALS, HAZARDOUS WASTES AND SHIPMENTS IN BULK TANK TRAILERS OR CONTAINERS

It is incumbent upon the shipper to state, with respect to any cargo tendered for transportation, (no matter how described or classified in this tariff or the governing classification) if the same shall be explosive, flammable, corrosive, oxidizing agent, poisonous, or consist of material which would otherwise be classified and reported as a hazardous material under applicable state, local or federal regulations, the following:

The "Proper Shipping Description" as defined in 49 CFR 172.202.

Upon receipt and review of the paperwork and, if deemed necessary, an inspection of the shipment, Carlile will decide whether or not it will be loaded to Carlile's equipment for transportation. Carlile will be the sole final arbiter of whether or not a particular shipment is safe for transportation on board its vessels.

The flash point of all chemicals shipped in bulk tank trailers or marine containers must be specified on the bill of lading at time of shipment. Bulk shipments in tank trailers or marine containers with a flash point of below 100 degrees Fahrenheit will be shipped only with the express prior approval of Carlile's Operations Department of the product and the shipping container which will be used for transportation. Tank trailers and tank containers on chassis must be loaded so as to not exceed legal highway weight limitations, depending on trailer/container lengths and tare weights. Gross weight must not exceed gross vehicle weight limits of the trailer or chassis. Bulk shipment of chemicals with a flash point below 60 degrees Fahrenheit will not be approved for transportation on ocean vessels.

EXCEPTION TO TARIFF CEPH 100 Series:

Bulk shipments in tank trailers or tank containers with a flash point of below 100 degrees Fahrenheit which have been approved for transportation aboard ocean vessels, shall be subject to a minimum charge per individual unit:

MINIMUM DENSITY REQUIREMENTS

LTL shipments consisting of commodities classified with LTL class ratings in the NMFC will be subject to the minimum densities shown in the following table:

NMFC LTL CLASS RATING	MINIMUM DENSITY LBS PER FT ³	NMFC LTL CLASS RATING	MINIMUM DENSITY LBS PER FT ³
50	30	110	6
55	20	125	6
60	20	150	6
65	15	175	4
70	15	200	4
77.5	12	250	4
85	12	300	3
92.5	8	400	2
100	8	500	1

NOTE 1: The billed weight of each LTL shipment will be the greater of (1) the actual weight of the shipment; or (2) the constructed weight of the shipment obtained by multiplying the minimum density corresponding to the class rating from the above table times the cubic footage of the shipment.

NOTE 2: In the event a shipment consists of multiple class ratings, the required minimum density will be computed by using the weighted average class rating of the entire shipment.

NOTE 3: Where the class is dependent on a released value, the density minimum will be determined by the lowest class rating applicable to the shipment.

NOTE 4: In computing the cubic footage of a shipment, the following rules will apply:

- A. The cubic footage of a shipment will be computed by multiplying its length, width and height measurements.
- B. The length used for computing the cubic footage of a shipment will be the greatest horizontal measurement of the piece or contiguous pieces making up the shipment parallel to the length of the trailer in or on which the shipment is loaded.
- C. The width used for computing the cubic footage of a shipment will be the greatest horizontal measurement of the piece or contiguous pieces making up the shipment parallel to the width of the trailer in or on which the shipment is loaded. If the actual width of the shipment is found to exceed five feet, eight feet will be used as the width for purposes of computing the cubic footage for billing purposes.
- D. The height used for computing the cubic footage of a shipment will be the greatest vertical measurement of the piece or contiguous pieces making up the shipment as loaded in or on a trailer. If the actual height of the shipment is found to exceed five feet, or if the actual height is less than five feet but because of the shipment's configuration or packaging other shipments cannot be loaded on top of the shipment being measured, eight feet will be used as the height for purposes of computing the cubic footage for billing purposes.

WEIGHT RESTRICTION – ALASKAN HIGHWAYS

996

During that period of time when under authority of state, borough or city law, the allowable gross vehicle weights are reduced on Alaska highways and/or streets to a point requiring a single trailer shipment to be reduced due to weight, the following provisions will apply:

I. Northbound Shipments:

A. Shipments destined for points defined in Item 342 of this tariff.

1. Upon written request from shipper or consignee, carrier shall transload lading into additional trailers at Anchorage, Alaska.
2. Charges for transloading shall be assessed in accordance with Item 959 and shall be for the account of the party requesting the service.
 - i. The entire shipment shall be rated to the appropriate point named in Item 342 (See EXCEPTION 1).
 - ii. Each trailer required for movement beyond Anchorage shall be assessed at the appropriate arbitrary charge in Item 342. (See EXCEPTION 1)
 - iii. Shipments destined to points not named in this tariff or to points for which no Anchorage based arbitraries are named in Item 342 shall be rated to the nearest point for which an arbitrary is named only. The shipper or consignee shall be responsible for all transportation beyond nearest point.

EXCEPTION 1:

Shipments destined to points for which specific rates are provided in this tariff shall be rated as follows:

- a. The shipment(s) shall be rated as if it (the entire shipment) moved from point of origin to destination without transloading at Anchorage, Alaska to meet highway restrictions.
- b. Upon request from shipper or consignee, carrier shall transload lading into additional trailers at Anchorage, Alaska.
- c. Each trailer from which carrier must transfer lading in order to comply with highway weight restrictions will be subject to transfer charges named in Item 959.
- d. Each additional trailer, beyond those included in the original shipment shall be subject to an arbitrary charge as provided in Item 342.
